December 23rd, 2015

Dear Ms. Goebel,

Dominion Voting Systems Inc. ("Dominion") appreciates the opportunity to communicate with you in light of the Request for Information, No. 16-04 Modernized Elections System for Washington State.

Dominion, an industry-leading elections technology provider, has been developing voting solutions the election community in the United States is asking for. Using valuable customer and real-world feedback, Dominion has been working to ensure that its technology meets current and future requirements of both election officials and voters. Dominion's flagship offering, Democracy Suite[®], is a specialized elections technology platform, which provides all the tools, functionalities and features which election officials need to run successful elections. Democracy Suite[®] is certified by the Elections Assistance Commission to the current VVSG 2005 standards. In addition to the experience and expertise acquired while supporting voting systems in over 1,200 election jurisdictions, Dominion has worked with numerous customers making the transition to Dominion's Democracy Suite[®]. As such, we are keenly aware of the realities involved and what it takes to successfully and efficiently transition to a new voting system platform.

Dominion welcomes the opportunity in the near future to work with your vendor of choice and provide the voters and election officials of Washington State with a more accountable, reliable and trustworthy elections partner. At Dominion, we believe in the power of partnership.

Sincerely,

A handwritten signature in black ink, appearing to read "W. Singh", written over a horizontal line.

Waldeep Singh,
Executive Vice President Sales, Dominion Voting Systems
